

March 27th 2020

Kyushu Electric Company Inc

Kyuden Business Front Inc

Starting with the Kyushu Region, Commencement of KYUDEN GLOBAL Division (Supporting Internationals with Job seeking and Japan Residency)

Commencing April 1st, Kyuden group company Kyuden Business Front Inc. (headquartered in Fukuoka city under the management of Mr. Katsumi Nakagawa) will roll out its new division, 'KYUDEN GLOBAL'. We aim to diversify the Japanese workplace with global talent while providing residency support.

Born from the KYUDEN i-PROJECT, which focused on the development of new businesses and services for the purpose of innovation within Kyuden Group as a whole, the project started its testing phase in April 2018, and service areas were decided based on customer needs.

With Japan's working population set to decrease in the near to distant future, and the number of elderly on the rise, KYUDEN GLOBAL looks to fill the gap through facilitating the hiring and residency support of foreign nationals.

Through these actions, the project aims to bring revitalization to the region and increase the demand for energy. Ultimately, we hope that those wishing to work in Japan will be able to do so comfortably, in terms of both daily living and working environment.

KYUDEN GLOBAL Division

Starting from Skilled Internationals, Kyuden Group Strives for Diversity in the Workplace. The Kyuden Group Management Vision 2030 project aims to support Kyushu's revitalization.

Our goal is to work towards a better future starting from Kyushu, to create a comfortable region filled with abundance. We are striving to realize this vision, with various projects planned up until 2030.

We will proceed with this new venture with due consideration to the current situation regarding COVID-19.

Main services:

(1) International Recruiting

Matching Japanese firms and international personnel, offering them job-seeking support.

(2) Direct Recruiting

Supplying a platform for firms to directly hire internationals from our HR database.

(3) Daily Life Support for Internationals

Supporting lifestyles by assisting with procedures such as applying for status of residence and employment, opening a bank account, or signing a rental contract.

(4) Diversity Education

Furnishing educational workshop services on the topics of diversity and intercultural understanding between Japanese and internationals.

(5) Translation / Design

Offering native-level translation, writing and logo design services by international personnel.

(6) Overseas Marketing and Promotion

Supplying global services such as overseas event planning, management and production, and distribution of surveys to overseas audiences by local freelancers.
